WARNING

This document contains classified information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive TALENT-KEYHOLE information. Its security must be maintained in accordance with KEYHOLE and TALENT regulations.

TOP SECRET

PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D

25X1D

25X1D

Novosibirsk Army Barracks Northeast is located in the northeast sector of the urban complex, 3 kilometers (km) northeast of the railroad bridge over the Ob River and 7 km south-southwest of Novosibirsk Airfield Northeast (Figure 1). The barracks area does not appear to be rail served. It is served by the streets and roads of the urban complex. Poor photographic quality precludes identification of walls or fences which may secure the installation.

The installation (Figures 2 and 3) covers

approximately 520 acres and contains 401 buildings, including probable administrative/barracks, support, and probable general storage buildings.

The installation was covered by nine KEY-HOLE missions between [REDACTED]

[REDACTED] There has been no apparent change in the installation since [REDACTED]. The latest available photography, in [REDACTED] indicates moderate winter activity within the installation.

25X1D

DESCRIPTION OF INSTALLATION

Road Service

The installation is served by the streets of Novosibirsk.

Aircraft Landing Strips

No landing strips are located in this installation, but several are located within the urban complex.

Administrative and Troop Housing Areas

Area D1 contains 68 probable administrative/barracks and 41 probable support buildings, apparently functioning as the major barracks area.

Area D2 contains 19 probable administrative/barracks and 12 probable support buildings, apparently functioning as the major administrative center for the facility.

Area D3 contains 72 dependents quarters.

Area D4 contains 27 dependents quarters.

General Storage Areas

Area E1 contains 43 probable general

storage and 14 probable support buildings. Since this area lies adjacent to the equipment storage/maintenance area (J), it can be inferred that Area E1 may be functionally related to the probable storage/maintenance area.

Area E2 contains 11 probable storage and 3 probable support buildings and may be functionally related to Area D2.

Other Buildings

Twenty-eight probable support buildings which may be functionally related to Area D2 are located in Area H.

Equipment Storage/Maintenance Area

Area J contains 40 probable storage/maintenance and 23 probable support buildings. Area J appears to function as the major logistical support area for the installation.

Athletic Field

Area K is a probable soccer field.
